

*One of the largest independent aviation parts distributors in the world*

**SAYWELL** INTERNATIONAL

# the parts people

**Saywell International**, formerly **RF Saywell Ltd**, was founded in 1946 by Ron Saywell. Originally offering spares support for “Gypsy” Engine powered aircraft and now evolving to become one of the **largest independent aviation parts distributors** in the world.

Our head office (Aviation centre) based in the UK occupies a total area of 155,000 square feet and is the hub of our global operations. With additional offices and warehousing in the USA and offices in Canada and Singapore, Saywell International is ready to support the world’s fleet of aircraft.

Our dedicated team of aviation professionals from the sales desks through to the warehouse are all geared up to offer you the quality products and services we have become renowned for.

WE HAVE **THE STOCK**

*Over 100,000 square feet of racking laden with spares*

# We can help to keep you flying

While operators and maintenance facilities are seeking to reduce their liability in stocking components, they increasingly rely on inventory held by approved vendors.

Saywell International fully appreciates this reliance and continually invests in stocking the parts our clients require. We now have over 100,000 square feet of racking laden with spares ready for instant delivery, 24 hours a day.

Our inventory consists of not just fast turn around consumables, we also specialise in stocking slow moving items that would normally have extremely long lead times and possibly ground an aircraft.

*Supporting the worlds fleet of aircraft*

**AIRCRAFT** SUPPORTED

# You fly it, we supply it

Saywell International offer consumable, rotatable and airframe spares support for an extensive range of aircraft; from light aircraft to wide bodied, from fixed to rotawing.

Commuter Aircraft supported include Airbus, ATR, BAE Systems, Britten Norman, Boeing, Embraer, Fairchild Dornier, Fokker, McDonnell Douglas, Saab, Short Brothers, Twin Otter as well as many others.

We offer spares support on Engine consumables and rotatables for both Turbo prop and Turbo fan configurations. Engine manufacturers supported, though not limited to, include Rolls Royce, General Electric and Pratt and Whitney.

Our General Aviation department offers support on Aircraft such as Cessna and Piper as well as rotor wings such as Bell and Sikorsky.

Which ever aircraft model you operate, Saywell International is able to support your spares requirements.

*The leading aerospace component manufacturers recognise our reliability and service*

# We have what you need

From Major Airlines and OEM's to the home build enthusiast; from ground support equipment to pilot supplies, Saywell International supply to every aerospace market sector.

Our product range is one of the most diverse you could possibly imagine. If you have a requirement, Saywell International will aim to fulfil it and, as we have direct distribution with many leading aerospace manufacturers, at a very competitive price.

A brief illustration of the range of products we supply is detailed below:

**Air filters**

**Air Pumps**

**Airframe / Components**

**Antennas / Avionics**

**Batteries**

**Bearings**

**Brakes**

**Clamps**

**Cleaning products**

**Couplings**

**Crew seats / Harnesses**

**De-icer boots**

**Engine control cables**

**Fire extinguishers**

**Flex Ducts**

**Gearboxes**

**Ground support**

**Hardware**

**Headsets**

**Hose assemblies**

**Lamps & Filaments**

**Oil filters**

**Ozone converters**

**Paints and Chemicals**

**Pitot heads**

**Propellers**

**Sensors**

**Smoke hoods**

**Spark plugs**

**Speed probes**

**Static Dischargers**

**Thermocouples**

**Tyres**

**Undercarriage**

**Wheels**

# HOSE MANUFACTURING

Our Eaton Aerospace and EASA approved hose assembly workshop is one of the most experienced worldwide, capable of manufacturing hose assemblies for the majority of aircraft both military and commercial.

Our dedicated production team is structured to respond to "AOG" requests on an immediate basis. The majority of AOG orders can be assembled and despatched within one hour, available 24 hours every day.

In summary; experience, quality and availability all from one source.

*Eaton Aerospace and EASA approved hose assembly workshop*

# You are always welcome

We truly believe that the best way to discover what opportunities exist and what Saywell International can offer customers and suppliers alike is to pay us a visit.

Our head office, on the South Coast of England, can be considered one of the most prestigious in our industry and we always welcome face to face discussion to realise any potential.

Please feel free to contact us to arrange a meeting.
