

the parts people

SAYWELL INTERNATIONAL

An introduction from managing director, Peter Saywell.

Saywell International's heritage stems from over 50 years experience in the aviation component supply industry.

Starting out as R. F. Saywell Ltd., which was founded in 1946 by my father Ron Saywell, we first specialised in spares for the De Havilland Tiger Moth and Rapide aircraft and also the Douglas DC3 (Dakota). We began Operations at Gatwick Airport and subsequent moves to Shoreham Airport and Rustington in West Sussex saw the introduction of new aircraft inventories and component overhaul workshops.

We were also awarded distribution rights by a number of manufacturers and launched our own airline "Haywards Aviation" operating De Havilland Doves, Britten Norman Islanders and Piper Aztecs.

the parts people

Further investment in more modern aircraft types, exclusive airline distribution, the acquisition of a number of aerospace companies, regional offices in USA, Canada and Singapore together with the construction of our purpose built facility on the south coast of England helped transform the company to it's present day format.

Our evolution and growth is one of progress and change, already new exclusive distribution rights have been signed for the Airbus Fleet of aircraft and in May 2004 the Company purchased the entire British Airways stock holding for the ATR72 Aircraft.

With over 750,000.00 line items held in stock, it is essential that our varied client base have clear visibility to this ever growing inventory. Our newly designed website offers access to components live 24 hours a day and offers a wealth of information on all of our authorised distribution lines.

Saywell International despatches over one hundred shipments a day worldwide. We are on call 24 hours a day throughout the year.

Today, Saywell International remains a family run company, with myself as Managing Director. I am a hands-on MD with my desk in the midst of our busy headquarters, a true family business with over 70 members of staff on call worldwide.

With our dedicated staff, large inventories and exclusive distributorships we truly are...

'THE PARTS PEOPLE'

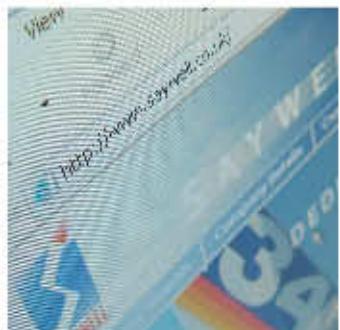

Peter Saywell
Managing Director
Saywell International

AIRCRAFT SUPPORTED

Saywell International offer consumables, rotables and airframe spares support for a wide range of aircraft from light to the wide bodied.

We are the sole distribution centre for Britten Norman Islander, Trislander and BAE HS748 and offer total support and are the only quality approved source for the supply of aircraft spares for these aircraft.

This is by no means the only aircraft we support, for any specific aircraft portfolio please request the information from our sales office.

AIRBUS (A300 A310 A318 A319 A320 A321 A330 A340)

Parts distribution, limited range of consumables and rotables.

ATR (42 72)

Consumables, Rotables and Complete engines.

BAE SYSTEMS (125 146 748 J31 J41 J42 ATP)

Consumables, Rotables and Airframe Spares. 748 sole distributor.

BRITTEN NORMAN (ISLANDER TRISLANDER)

Sole distributor, Consumables, Rotables, Airframe spares.

BOEING (B707 B717 B727 B737 B747 B757 B767 B777)

Parts distribution, limited range of consumables, rotables and airframe spares.

EMBRAER (EMB-120 ERJ135 ERJ145 E170 E175 E190 E195)

Parts distribution and limited range of consumables.

FAIRCHILD DORNIER (D228 D328)

Parts distribution and limited range of consumables and rotables.

FOKKER (F27 F28 F50 F100)

Parts distribution and a range of Consumables, Rotables and Airframe spares.

McDONELL DOUGLAS (DC-8 DC-9 DC-10 MD-10 MD-11 MD-80 MD-90 MD-95)

Parts distribution, limited range of consumables, rotables and airframe spares.

SAAB AIRCRAFT (340 2000)

Parts distribution and a limited range of consumables.

SHORT BROTHERS (SKYVAN 330 360)

Consumables, Rotables and Airframe spares

TWIN OTTER

Parts distribution and a limited range of consumables and rotables.

GENERAL AVIATION AIRCRAFT

From historic aircraft to Cessna & Piper etc.

ENGINES CFM56 PW6000 RB211-524 V2500 DART

Consumables and Rotables

AIRLINE INVENTORY

Saywell International's airline inventory department is continually expanding and developing as we actively invest in complete inventories from various airlines. We currently specialise in the Airbus A300, ATR 72, BAE 146, HS748, Boeing 737, Britten Norman Islander/Trislander and Fokker F50. Our stock includes all major components, consumables and rotables.

Spares for the ATR 42, Fokker F27/28, Shorts SD330/SD360 and Skyvan also contribute to our vast inventory of over 750,000.00 line items as does our huge stockholding of spares for the Rolls Royce RB211 and Dart engines.

We can provide a fast turnaround on components for these aircraft & engine types and are able to arrange overhaul and repairs.

DISTRIBUTION

Many of the leading Aerospace component manufacturers have recognised the reliability and service Saywell International offer, knowing aftermarket distribution and supply is in safe hands.

Saywell International handle more than 100 product lines from 80 manufacturers and we are direct distributors for the following:

Aircraft Braking Systems - Wheels and Brakes

Aircraft Braking Systems Corporation (ABSC) is a leading manufacturer of wheels, brakes, brake control and related systems for the commercial, military and general aviation markets.

Saywell International are the largest ABSC Distributor in Europe providing excellent aftermarket spares support worldwide to a broad range of customers from small aircraft operators to some of the world's major airlines.

Aviall - Almost Everything

Saywell International are the main authorised Aviall distribution centre for the UK and Europe. Since this agreement was awarded in 1994, Saywell International have increased the range and quantity of products available off the shelf from our UK facility. Items held include anything from general hardware to rotables and complete engines.

BAE SYSTEMS - HS748 spares support

Saywell International is the official Exclusive Distribution Centre for spares support on the BAE HS748 Aircraft. Saywell International's own vast HS748 inventory has been enhanced by the addition of the BAE SYSTEMS inventory of over £18 million sterling.

With distribution agreements with many of the consumable parts manufacturers, and a large rotatable pool available for service exchange and a rotatable management service, Saywell International are the world leader in HS748 spares support.

BN Group - Islander and Trislander spares support

Saywell International is the official Britten-Norman Islander and Trislander worldwide customer spares support centre and are their sole distributor.

In partnership with BN Group, our vast factory new inventory of airframe, consumables and rotables is managed by a dedicated sales team 24 hours around the clock. We have positioned our stock in both our UK and USA facilities to better support the Global market cutting down delivery times.

Chicago Miniature Lamps - Lamps Filaments

Choose from a broad range of styles and operating characteristics for an equally diverse range of applications. Status indicators, Instrumentation lighting, Cabin and flight deck lighting, Navigation & anticollision lighting and Inspection lighting.

Cleveland Wheel & Brakes (Parker) - Wheels and Brakes

Saywell International has been an authorised distributor for Cleveland Wheels & Brakes since 1975. Cleveland products are used extensively on many of the GA aircraft such as Bell Helicopter, Britten-Norman, Cessna, Piper, Raytheon and many more.

We hold a huge inventory from complete wheel assemblies and brake assemblies and their associated parts in stock.

Edel-Aviation Paints - Aerospace Paints

Saywell International are a distributor for Edel-Aviation, supplying aerospace aerosol paints used on a wide range of GA aircraft and Airliners. We offer Edel-Aviation's full range of aerosols including the popular colours which are always available from stock.

Engelhard Corp. - Filters

Saywell International are the sole distributor for Engelhard Corporation which covers Europe, Africa and the Middle Eastern, North & South America and Australasia territories.

With Engelhard's recommendation, send your ozone converters to Saywell International for OEM test, washing, servicing and repair. Even in the unlikely event of the units requiring re-core you pay the same prices utilising Saywell International as you do direct from Engelhard's factory.

However, as an operator or a maintenance facility you also have the added benefit that if you require your filter on a critical basis you can take advantage of our increasing stock holding of new and "off the shelf" exchange units available 24 hours a day.

Don't compromise with an unauthorised regeneration process when you can have the job carried out professionally by the OEM.

Goodrich - De-ice boots

Goodrich de-icing and speciality systems is the market leader in aircraft ice protection systems. Saywell International are authorized distributors and maintain the complete range of de-icing products for the BAE SYSTEMS HS748 and ATP aircraft.

DISTRIBUTION

Eaton Aerospace Distribution and Hose Manufacturing

Saywell International are the UK based Master Distributor for Eaton Aerospace (Aeroquip). With over 20 years of Aeroquip distribution experience, our dedicated sales team have the technical and market knowledge to support the worlds fleet of aircraft.

Aeroquip products include:

**All pressure ranges of rubber and Teflon Hose and Hose Assemblies,
Fittings,
Adapters,
QD Couplings and other fluid connectors
V-band Clamps
Conoseals
Flanges
Swivel Assemblies
Straps
Rynglok System
Bellows
Flexible Joint and Ducts.**

Saywell International hold a massive inventory of Eaton Aerospace products which includes our CAA and Eaton approved hose shop, which manufactures hose assemblies for all types of aircraft.

Our experienced hose shop has the ability to manufacture a large range of hose assemblies around the clock for virtually any aircraft from light to the wide bodied, which are approved by Eaton Aerospace (Aeroquip) and the CAA.

A typical hose assembly order is usually manufactured and shipped within 4 days, however we pride ourselves on meeting our customers delivery requests and often ship sooner if required. Our production team has been structured to respond to an AOG request immediately. Most AOG purchase orders can be manufactured and shipped within 1 hour, 24 hours a day.

Bearing Distribution

With over 25 years of experience and direct distributorship/stockists agreements for leading bearings manufacturers, Saywell International can be considered one of the world's largest bearing suppliers to the Aerospace industry, both civil and military.

Airframe Bearings – for all Airframe manufacturers including Airbus, Boeing, Britten Norman, the British Aerospace Fleet, Shorts, Fokker & I.A.E. V2500 amongst others).

Rod End Bearings – for use on a multitude of applications including the Airbus fleet, Boeing fleet, British Aerospace Fleet, Britten-Norman, I.A.E. V2500 and Rolls-Royce engines.

Wheel Bearings – for all manufacturers including Goodrich, ABSC, Dunlop, Cleveland and MHB.

Needle Roller Bearings

Spherical & Tapered Roller Bearings

Saywell International has also been awarded "Aircraft Landing Wheel Specialist" status by the Timken Corporation. The criteria for being selected centres on safety capabilities and technical expertise. These selected Timken aircraft landing wheel specialists will be well equipped to meet the needs of airlines, aircraft manufacturers and airframe repair facilities. Our team are here to support you whatever the aircraft application.

Distributor/Stockists For:

Aeroengine Bearings (RHP)

Barden

NMB-Minebea – Incorporating:
New Hampshire Ball Bearings (NHBB)
NMB
Rose Bearings

RBC – Incorporating:
Fafnir Airframe
Heim
Industrial Tectonics Bearings
MPB Airframe
Schaublin
Torrington Airframe
Transport Dynamics

Sarma

The Timken Company – Incorporating:
Timken Wheel Bearings
Nadella

DISTRIBUTION

HK Porter - Ducting

Saywell International are a distributor for HK Porter, supplying aerospace ducting used on a wide range of GA aircraft and Airliners.

Michelin Condor - Tyres

Condor aircraft tyres offer outstanding durability at a very competitive price. They are specifically designed to meet the two major requirements of most flight schools: extended tyre life in a student pilot environment and a very economical price; Condor offers this and more.

Saywell International can provide the complete range of tyres direct from our UK facility.

Teledyne Gill - Batteries

Gill Batteries, a division of Teledyne Continental Motor's, are the "Original Equipment Battery" for many commercial, private and military aircraft. Leaders in the industry for more than forty years, Gill Battery products are proven to last and out-perform the competition.

Saywell International, an Authorised distributor, supplies and markets the complete range of Teledyne Gill Battery products.

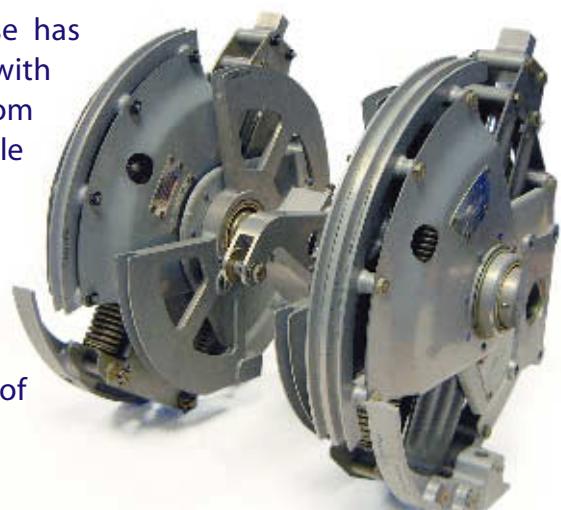

Gill Electric improved the dry-charged process which provides a fresh charged product when the electrolyte is added. Gill has become the OEM "original equipment manufacturer battery" for Raytheon, Cessna, Learjet, Mooney, Piper, Ayres, Airtractor, Maule, Schweizer and others in the aviation industry and Gill continues to be the industry's choice for quality battery products.

Teleflex Morse - Crew Sets, Harnesses, Engine Controls, Control Cables

Saywell International are the sole distributor for Teleflex Morse aerospace products.

For more than sixty years, Teleflex Morse has been supplying the aerospace industry with superior quality remote control systems, from flight-critical cable control systems to cable tension regulators.

During the years the company has been producing control systems, Teleflex Morse has demonstrated a capability to create robust designs for a wide range of applications.

Thales Optronics Taunton (Avimo) - Monitors and pitot heads

Saywell International are the sole distributor for Thales Optronics civil aircraft pitot, pitot static probes and attitude monitors.

Thales Optronics have over 60 years experience in designing and manufacturing a complete range of Pitot and Pitot static probes for the most demanding environments. Their probes utilise self-regulating heaters which provide long life and high reliability.

We always hold the complete range of the Thales Optronics (Taunton) pitot, pitot static probes and attitude monitors in stock; so delivery/lead time is never an issue.

Eaton Tedeco - Sight gauges, Chip Detectors, Magnetic plugs etc.

Products for industrial, military, mobile and marine fluid systems. Tedeco is a leading manufacturer of fluid system accessories for aircraft engines, transmissions, auxiliary power and hydraulic systems.

Tedeco also specialises in a vast range of condition monitoring equipment.

STOCKISTS

Saywell International are also the stockists for the following manufacturers, please contact our sales department for further information on any product line.

Airscrew Howden - Superchargers and Cold air units

APPH - Hydraulic Components, Undercarriages and Filters

Algglas - Cleaning Products

British Filters - Filters

Dunlop - Wheels, Brakes, Compressors and other components

Messier Services - Undercarriages and associated spares

Dowty - Propellers

Fairy Hydraulics - Undercarriages, Filters etc.

HR Smith - Anntenna, Static Dischargers, Gaskets and ELT's

Kidde Graviner - Fire extinguisher systems
