

- STOP -

THE WHEEL & BRAKE APPLICABILITY DATA IS ACCURATE TO THE BEST OF OUR KNOWLEDGE. IT IS TO BE USED ONLY AS A GUIDE, AND NOT TO BE CONSTRUED AS THE BASIS FOR AIRCRAFT INSTALLATION APPROVAL.

Note!

Unless otherwise noted, listed Wheels and Brakes are FAA TSO C26 Approved.

For a product to be TSO qualified, it has to have successfully demonstrated its ability to meet minimum performance standards in accordance with FAA recognized rating methods. The TSO approval of a product does not constitute installation approval or applicability on an FAA Type Certificated Aircraft. It is the responsibility of those installing these products to determine that the aircraft installation and its wheel and brake performance requirements are compatible for the TSO ratings of the wheel and brake. TSO approved products must have separate approval for installation in a FAA type certificated aircraft. TSO Approved Products may be installed only if performed under Title 14 CFR Part 43 or the applicable airworthiness requirements.

Consult the Airframe maintenance manual, parts catalog, or equipment list (for optional installations), to confirm the approved part number for a particular application. It is the responsibility of the installer to assure that only approved parts have been used. Prior to installing replacement parts, please verify that the wheel and brake assembly numbers as listed match the model numbers as indicated on the nameplates. If unable to identify the parts, contact the **Technical Services Hotline**.

For quick reference, disc and lining part numbers are listed in the directory. Manufacturers and aircraft are listed alphabetically with models listed numerically. For other replacement parts on your assemblies, turn to the numerical assembly listing for a particular parts breakdown.

Actions affecting a particular assembly will be noted below each applicability data table. Always check for additional information such as superseding equipment, applicable upgrades and other pertinent information in the numerical assembly listing parts breakdown.

For technical assistance, contact the

(1) Formerly Lake Aircraft, Inc.

(3) Superseded by 30-51B.

(5) For heavy duty option, order Main Wheel Assy 40-418 and Brake Assy 30-241, which is also high corrosion-resistant equipment.

(7) High corrosion-resistant, amphibious equipment. Replaces Main Wheel Assy D-30660-7 and Brake Assy D-30793-4 on new production aircraft. See Airframe Manufacturer for applicability.

- STOP -

BE AWARE THAT THIS LIST GIVES INSTALLATION ELIGIBILITY FOR THE LISTED OEM PART NUMBERS, AND IS NOT NECESSARILY AN INDICATION OF HOW A PARTICULAR AIRCRAFT IS ACTUALLY EQUIPPED. IN ORDER TO USE THE FAA-PMA CLEVELAND PART NUMBER AS LISTED, THE INSTALLER MUST VERIFY THAT THE PART TO BE REPLACED IS INSTALLED ON THE AIRCRAFT MAKE, MODEL AND SERIAL NUMBER (IF APPLICABLE) AS LISTED, AND THAT IT IS THE SAME OEM PART NUMBER AS INDICATED.

The **FAA-PMA Product Directory** is a listing of FAA-PMA aircraft/model eligibility of all Cleveland PMA hydraulic products. The list is based on Cleveland Product Reference Memo PRM71.

When ordering replacement parts for the listed assemblies, refer to the numerical assembly listing for the parts breakdown. **It is the responsibility of the installer to assure that only approved parts are used.** Prior to installing replacement parts, verify that the model numbers as listed herein match the model numbers as indicated on the nameplates of the assemblies to be repaired. If any questions arise, contact the **Technical Services Hotline**.

For technical assistance, contact the
