FFE

Saywell International stock the full range of CAA approved cabin fire extinguishers from **Fire Fighting Enterprises (FFE)**. FFE are a World leader in the manufacture and supply of fire extinguishers for the aviation market. FFE products are designed, engineered and manufactured to exacting standards and have attained product type approval in Europe (EN54, CPD, VdS), US (UL), China (CNTC), France (NF) and Russia (VNIIPO).

Key Benefits

- Halon 1211 supplied green as standard, other colours available by negotiation. Water Glycol supplied in red only
- 0.7kg - 2.5kg capacity
- Seamless Aluminium container for strength and lightness
- Pressure indicators to aid routine service checks
- Bulkhead adaptors, and fire extinguishers fitted with special nozzles, for protecting inaccessible areas such as avionics bays, cargo compartments etc.
- Associated brackets with single or double straps, 90° orientation to bulkhead, extra handle guards, plus combinations of the above, i.e. double strapped bracket with extra handle guard
